**Program title:** Strengthen Cybersecurity Education and Research for Preventing Cybercrime

**Program period:** 09/01/2021 – 04/30/2022

### **Purpose of the program**

The project goal is to strengthen the cybersecurity education and to promote and disseminate cybersecurity research in Romania for preventing cybercrime.

### **The program objectives are:**

- Delivering online training activities for enhancing the skills of criminal justice authorities in cybercrime investigations.
- Delivering online training activities for improving the cybersecurity knowledge of high schools and university students.
- Organizing a scientific conference for promoting and disseminating cybersecurity educational and research papers and raising awareness on cybersecurity.
- Developing a conference platform, for indexing the conference proceeding in scientific international databases.
- Promoting international cooperation in fighting cybercrime.
