Victimology Summer School 2024

International programme

Every year, Slachtofferhulp Nederland (Victim Support Netherlands), together with ViNe (the Dutch Victimology Network) and NSCR (Netherlands Institute for the Study of Crime and Law Enforcement) organises the Victimology Summer School. The Victimology Summer School provides a meeting place for policy makers, academics, (criminal justice) professionals and students working in victim support and victimology.

As we celebrate the 40th anniversary of Slachtofferhulp Nederland in 2024, it is our great pleasure to invite our international colleagues to join us, online or in Amersfoort (The Netherlands), on Thursday 29 August 2024.

## Mass victimisation

The Victimology Summer School 2024 will focus on mass victimisation. Mass victimisation occurs when one incident or one perpetrator causes a large number of victims. For example, a (terrorist) attack or an online crime.

In her opening lecture, Prof. Nicole Immler will provide an overview on mass victimisation in the Dutch and international context. Two consecutive international break-out sessions will explore questions such as: How to assert victims' rights and provide psychosocial and legal support when large scale victimization occurs? What are best practices that we can learn from together?

The full programme will be available by mid-May.

## Practical information

We can host 40 participants in the online programme and 20 participants in the international programme in Amersfoort.
